If we don't have it, you don't need it!

Message from Daryl with All West Sales:

Hi, I'm Daryl from All West Sales in Rosetown, inviting you to stop in and have a coffee and visit.

We have been in business for 40 years, selling and servicing farm machinery. We have a good selection of new machinery in stock with some attractive pricing for pre-season harvest, such as tractors, 2 and 4 wheel, grain baggers and extractors, augers, o-turn mowers, high speed discs, and many others. I look forward to serving you! Thank you for your support in the past and your continued support in the future. Have a safe and prosperous growing season!

3 PLEX LANDROLLER

What initially started as a rock roller has evolved into a multi-use and valuable farm asset. Landrollers smooth the field surface by pushing down rocks and debris, allowing the cutter bar to operate effectively and reduce the risk of repairs. Create better germination with optimal soil-to-seed contact. Increase yields on your farm with a Mandako Landroller!

Maverix Terminals

7" and 10" high-definition touch screen with pinch to zoom capability
New User Interface for intuitive handling and customer experience
Tablet like operation
Customizable widgets allow the user to define their own screen layout based on preference and operation
Up to 6 working screen layouts that can be saved and changed on the fly
Detailed 3D machine models and advanced viewing angles
Easily connected with built in WiFi to support over-the-air software updates and RTK/NTRIP corrections without the need for additional hardware

Outback eDrive ESI2

Combined with either XD or XC delivers accurate automated steering performance
Easy calibration
Simple installation
Model specific kits allow for quick installation by the grower
Whisper quiet/high torque electric wheel works on even the hardest to steer vehicles

Outback AC110

Single product rate control
Up to 10 section autoboom shutoff
Variable rate compatible
Controls liquid, dry, and anhydrous ammonia
Simple auto calibration procedure
Works seamlessly with STX, MAX, and REBEL terminals
Integrated rate and section control eliminates cab clutter

Outback RTK Corrections

Utilizes A631 All-in-one, Triple-Frequency, Multi-GNSS Receiver Solution
Tracks and provides corrections for GPS, GLONASS, BeiDou, Galileo and QZSS constellations
Fast start up and acquisition times
Easy setup and configuration with mobile device (Smartphone or Tablet) using WiFi interface
900 MHz radio for license free communication
Mobile use with carrying case and external battery
Ideal solution to provide customer owned corrections for Rebel or Maverix Sub-Inch systems
Can be combined with another A631 as a rover for tile plows and ditching applications
Upgrade your gps signal on your outback equipped seedhawk drills to rtk for more accurate shank placement

Outback eDriveM1

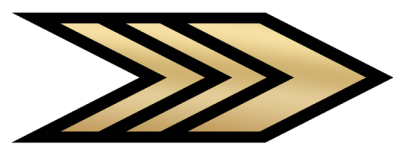

Next generation steering controller
Available for ESI2 or hydraulic applications
Utilizes 6 axis Inertial Measurement Unit to provide growers with reliable centimeter level performance
Easy, multi-step calibration process to support end customer installation
Integrated valve driver to utilize hydraulic retrofit and OEM valves without the need for additional hardware
Supports Straight, Contour, AB-Contour, and Circle Pivot steering modes
Integrates Shuttle Shift and reverse steering capabilities
Features eTurns for automated headland turns
Easy installation with over 1,500 models covered
Facilitates precise steering tasks such as tillage, spraying, harvesting, spreading, planting, bedding, and nutrient placement

Outback A631 All-in-one,

Triple-Frequency, Multi-GNSS Receiver Solution
Tracks GPS, GLONASS, BeiDou, Galileo and QZSS constellations
Fast start up and reacquisition times with scalable accuracy
Interference Mitigation technology
Supports Atlas Global Correction Service for improved performance and repeatability over SBAS
Available dual serial, NMEA 2000/CAN, and GSI pulse output interface options
RTK Upgrade Option – compatible with A631 RTK base station and cellular RTK networks
